PRESS RELEASE

December 2, 2025

THANK YOU, GHANA—BUT OUR PAY IS STILL NOT COMPLETE.

The Coalition of Unpaid Nurses and Midwives Ghana extends heartfelt appreciation to the Ministry of Health, GRNMA, UPNMG, all media houses, bloggers, and the numerous stakeholders who stood firmly with us during our long and painful fight for our salaries. Your solidarity has pushed the national conversation forward and has already begun to yield results.

We acknowledge the payment of one month's salary in November 2025. Indeed, this payment confirms that when we rise together, we cannot be ignored.

However, one month's salary after 11–12 months of dedicated service is far from satisfactory. In fact, it is a painful reminder of the magnitude of neglect nurses and midwives continue to face in this country. Our members have endured debt, eviction threats, hunger, psychological stress, and daily humiliation, only to finally receive a single month's pay. This is not relief but an insult to the Nursing and Midwifery fraternity.

As publicly promised, we expect a clear, written payment plan for all remaining arrears latest by the first week of December 2025.

We again expect a full payment of all accumulated salary arrears with no justification whatsoever for delaying payment beyond December 2025.

As we enter the final month of the year, we expect the Government of Ghana and the Ministry of Health to match our sacrifice with fairness, respect, and action because the hardship is unbearable, the delay is unjustifiable and the world is still watching.

We remain committed to peaceful engagement but equally committed to demanding what is ours.

Stephen Kwadwo Takyiah
